

HOW CAN I MAKE A DIFFERENCE?

These MA elected officials represent us and have or can take positive or negative 'smart' meters and infrastructure action. This is a fluid document: 1/2 stars, crickets & puppet strings presently dominate. A groundswell of constituent action demanding that our representatives represent our best interests CAN change alter the future. Lets erase the crickets and replace them with gold stars!

Communicate encouragement and info to your stae rep and senator: and as long as you are at the keyboard also send to the oddcials below: rotate through the list with special emphasis on the AG and Telecommunications Committee and chairs. Phone & email six people weekly: the process should take less than 15 minutes. Face to face visits are key: try to do that as well. Encourage loved ones and coworkers to do the same. Please email HaltMAsmartMeters@gmail.com when you have updates. Feel free to visit HaltMAsmartMeters.org/campaign for ideas for content. List of officials by town is (way) below.
