

Thank you for taking our survey. Under the umbrella of [EMR Policy Institute](http://EMRPolicyInstitute.org), HaltMAsmartMeters.org (HMSM) is focused specifically on issues pertaining to Massachusetts utilities. Recently, we learned that this neighborhood was at or near 100% deployed with 'smart' meters; soon thereafter we distributed literature. We learned that many with whom we personally spoke did, indeed, have a 'smart' meter affixed to their home (meaning they are definitely part of the National Grid/Massachusetts Department of Utilities 'smart' meter pilot program) but they were unaware of:

- 1) the RadioFrequency emitting (2-way-wireless) 'smart' meter installed on their
- 2) the National Grid/Massachusetts Department of Utilities 'smart' meter, 'smart' grid pilot program and/or
- 3) the fact that they were even a participant in the pilot

In order to quantify our observations, we conducted the survey in which you participated: again, thank you.

- The **90-foot Tatnuck Tower, just 70 feet from the Sullivans' home** is private i.e. for transmitting Worcesterites' electrical usage data FROM 'smart' meters and instructions TO 'smart' meters. The land had been a playground for many decades.
- The Worcester Zoning Board would have already approved the Tatnuck Tower but for a [clerical error](#) (they approved 3 others). (See Worcester Magazine – right.)
- **Please support your Tatnuck neighbors:** come to the [zoning hearing](#) at City Hall on July 29th. If you are unable to attend please email or write to the [mayor](#), [city council](#), [city planner](#) and [zoning board](#) to show your support.

See, **WCCA Channel 13:** "SoapBox" [#884](#), "Rosen's RoundTable" [#143](#) & "Activate Worcester" [#38](#). Check HaltMAsmartMeters.org for links and up-coming shows: "Coffee with Konnie," "What Its Worth," "Rosen's RoundTable" (in depth), **Channel 3**, "The Hank Stolz Experience" Attorney General Martha Oakley's seven page February 2012 letter to the DPU which states:

<http://www.wccatv.com/>  
&  
<http://www.chartertv3.com/>

- Customers (have no) "understanding of the real costs and benefits associated with this particular program, let alone full deployment based on the results of this program."
- "there was (no) discussion of costs versus benefits associated with "going green"
- "Despite these clear trends, (no consumer cost/benefit and "little evidence of overall energy conservation") National Grid proposes to launch a **massive pilot at great ratepayer expense to test already tested (and failed) hypotheses.**"
- "there was no real consultation with consumers on the design, cost, or tariffs associated with this proposed program." National Grid "customers in Worcester ...helped design it"
- 'Time of Use' electricity costs 12.6 TIMES base rate on hottest days
- The **stealth DPU approved letter supposedly informing you that you can 'opt-out'** of the 'smart' meter pilot. See paragraph 3 of 4 "We have enclosed some important information for you to review." Then see bullet 5 of 6 "• If you would prefer not to receive an advanced meter, please call us within a month at **1-800-322-3223**." Did you get it? Did you read it?

**Worcester Residents Are Lab Rats** in a moot, according to Martha Coakley experiment that is not monitoring human health or the environment:

- See how much money NGrid is paying to study psychology of Worcester residents using techniques of **Appreciative Inquiry, Persuasive Design** (page 58)

<http://www.env.state.ma.us/dpu/docs/electric/11-129/122311nqpt3.pdf>

'Smart' metering is being fought all over the U.S. and world but we have the advantage of timing: we know BEFORE our \$7 Billion is spent and there is no going back. **"Take Back your Power"**: tell your friends, family & co-workers about the **"Dark Side of 'Smart Meters."**
